SAVE WATER, ELECTRICITY, TIME WITH SINE

COMPANY PROFILE

Sine Tech have been Pioneers in Introducing Electrical and Electronics Automation products with Innovative features, International Quality standards and over the last few decades. The company based in Chennai, Equipped with modern manufacturing, R&D facilities and In-house production team. The company brand SINE has Earned customer satisfaction, Now introduce micro controller based Automatic water level controller and Automatic timer.

OPERATION

In Tank model automatically Switch on the Motor if Over Head Tank level is low, Automatically Switch off the motor if Tank level is high. In Sump with Tank Model Automatically Switch On the Motor if Tank level is low and Sump level is high. Automatically Switch Off Motor if tank level is high and sump level is low.

SPECIAL FEATURES

1. Reliable advanced Micro Controller based Automatic Water level controller
2. 7 segment LED Display for Each Operation Status.
3. Low Voltage / High Voltage protection.
4. Load Current Sensing based Dry Run and Over load Protection.
5. Advanced Programmable cyclic timer setting.
6. During emergency use motor manually at anytime.
7. Easy installation by Electrician and Plumbers

Think Innovation Think SINE

SAVE WATER, ELECTRICITY, TIME WITH SINE

APPLICATION AREA :

Residential House, Bungalows, Apartments, Commercial Complex, Industrial Building, Hotels, Hospitals, Colleges & Multistorey Buildings.

RANGE OF PRODUCTS

| MODEL	APPLICATION
1. ST - TAD	1. Tank Control with display and float sensor
2. ST - SUD	2. Sump and Tank Control with display and float sensor
3. ST - SMD	3. Tank Control with display and float sensor for submersible motor
4. ST - TA	4. Tank Control with float sensor
5. ST - SU	5. Sump Control with float sensor
6. ST - SM	6. Tank Control with float sensor For Submersible Motor
7. ST - SA	7. Tank control with float sensor - Manual on Auto Cut Off
